

HASSAN AL-SHEHARI

Senior Full-Stack Web Developer

Istanbul, Turkey

0090 (534) 7017099 | h.shehari@gmail.com

INTRODUCTION

As a passionate Full-Stack Web Developer, I specialize in building modern, scalable, and high-performance web applications using Node.js, NestJS, React.js, Next.js, and MongoDB. With extensive experience in back-end and front-end development, I create seamless user experiences and efficient server-side solutions. My expertise in crafting dynamic APIs, optimizing performance, and implementing best practices ensures robust and maintainable applications. I am dedicated to delivering innovative solutions that drive user engagement and business success.

EXPERIENCE

Senior Web Developer & DevOps Engineer

MeshDP LLC, Turkey | 10/2021-Current

Driving the development and delivery of cutting-edge web applications using Node.js, Next.js, and MongoDB, while managing cloud infrastructure on Google Cloud Platform (GCP). Leading a team of developers to create scalable, high-performance solutions that integrate AI APIs and tools for enhanced functionality and user experience.

- Developed and maintained scalable, efficient back-end services using Node.js and MongoDB, ensuring reliability and performance under heavy loads.
- Designed and implemented dynamic front-end applications with Next.js, improving user interface performance and responsiveness.
- Integrated AI APIs and tools to provide intelligent automation and enhance application features.
- Implemented CI/CD pipelines to streamline the development process, improving deployment speed and reliability.
- Managed secrets, certificates, and configurations using Kubernetes YAML files, enhancing security and operational efficiency.
- Collaborated with cross-functional teams to optimize cloud infrastructure and automate workflows, reducing manual intervention and increasing system uptime.

Web Developer

Ultimate-STC, Turkey | 10/2017-09/2021

Responsible for designing, developing, and maintaining high-quality web applications. My primary focus was on writing clean, scalable, and efficient code in Node.js. I collaborated closely with cross-functional teams, including designers, product managers, and backend developers, to translate user requirements into technical solutions. During my time there, I played a key role in optimizing web performance, implementing responsive design practices, and integrating third-party APIs.

Program Officer

Horizon Foundation for Development, Yemen | 10/2016-09/2017

Volunteer role at Horizon Foundation, a non-profit organization focused on improving community health and well-being through various initiatives and programs.

EDUCATION

Master's Degree, Information Technology

University of Hyderabad, India | 2015

Bachelor's Degree, Information Technology

Alandalus University, Yemen | 2010

SKILLS

Full-Stack Web Development | Node.js | NestJS | MongoDB | React.js | Next.js | Javascript
| Google Cloud Platform | DevOps | Kubernetes & Docker | Microservices | Teamwork
